

Dear Golf Members,

The Golf Board strongly endorses the renovation project of the Terravita Clubhouse and encourages you to send an email to the TCC Board members if you are not presently in residence or, if you are in town, to attend the TCC Board meeting on Wednesday, July 12th to demonstrate your approval. While some may not agree with the budget numbers being discussed, a major renovation is necessary for several reasons: maintaining or increasing property values, attracting new residents, non-resident golf members and retaining our current members. There is a group of vocal residents who are opposed to the project, using false information with regard to TGC who are attempting to derail the renovation. Many clubs in North Scottsdale are renovating their facilities and it's important that we do the same in order to sustain the health of the community and to attract new members.

We, as current Board members, and those who have served in the past, realize that sometimes difficult decisions have to be made for the good of the organization and that we must follow the mission statements developed for the health of our Clubs.

*Terravita Country Club Mission Statement: "To preserve, enhance, and expand the services, functions and physical facilities provided to our members with appropriate fiscal responsibility. The quality of the Club experience is our first priority."*

The meeting held on June 26th was overflowing and many people were unable to attend. The room was mostly filled with those who had signed a petition against the project. We suggest that you arrive very early to get a seat to show your much needed support for the CC Board and your approval of the project, as well.

Email addresses for the TCC Board of Directors can be found on the Terravita website.

We appreciate your help on this most important project.

The TGC Board of Directors
